Joyce, let's allocate \$174,000 for now. I'm currently requesting additional funds (hopefully for the last time this fiscal year) so will be able to provide final estimated dollars soon. TY - lw

Laura & Joyce,

Until we receive additional funds from HQ, I'm showing \$274k in removal contracts available to obligate.

Removal Contracts	
Beg Bal	\$715,505
BOR IA	(\$175,000)
MSI Contract	(\$47,000)
ASPECT Contract	(\$64,000)
USCG IA - R9	(\$33,128)
USCG IA - R8	(\$122,000)
End Bal	\$274,377

Thanks,

Joe

Hi everybody – I just entered an amendment into EAS for an additional \$200,000 to bring the ceiling up to \$1,148,763.22. As of Saturday, 8/22/15, their burn rate was still over \$50,000 per day.

We now have approximately \$122,000 obligated to the START contract in RV funds. We should add funds to cover Gold King and other sites. Laura, how much would you like me to add via a PR?

Thank you!

Subject: New ceiling for START TDD - probably need to do another PR next week for START contract

Hi Laura and everybody – The START contractor has nearly reached their ceiling of \$610,763.22. I just entered an amendment into EAS for an additional \$338,000 to bring the ceiling up to \$948,763.22.

START's burn rate, based on an average of the last 3 days, is approximately \$58,000 per day. That includes personnel, lab costs, equipment, and other direct costs.

After processing the amendment, we will have approximately \$327,000 obligated to the START contract in RV funds. If START continues at this burn rate, that represents only six days of work, and doesn't account for other Removal Program projects that might need additional funding, including emergency responses.

I think we should process another PR early next week to obligate additional RV funds to the START contract. Please let me know how to proceed, i.e., how much I can put in the PR.

Thanks!
